Source I - Why Sleep Matters for Teenagers

Use this reading for questions 1 to 6.

Teenagers need 8 to 10 hours of sleep each night, yet many get far less. Early school start times, homework, sports, and late night screen use all cut into sleep time. When sleep is short night after night, the effects build up.

Sleep helps the brain store what was learned during the day. Students who sleep well are more likely to remember lessons, solve problems, and stay focused in class. Sleep also affects mood: tired students are more likely to feel irritable and stressed.

The article argues that families and schools should protect sleep time. Simple steps help, such as keeping phones out of the bedroom at night and keeping a regular bedtime. Better sleep is not laziness; it is part of learning well and staying healthy.

Question 1

According to Source I, what is the central idea of the article?

A) phones in the bedroom help students sleep better

B) teenagers should avoid all homework and sports to get more sleep

C) early school start times are the only cause of tired students

D) teenagers need enough sleep because sleep supports learning, mood, and health

Source II - A Town Builds a Library Garden

Use this reading for questions 7 to 11.

Last spring, the town of Cedar Falls turned an empty lot beside its library into a garden for readers. Volunteers cleared weeds, built raised beds, and planted flowers, herbs, and vegetables. The project was paid for by a grant from the town council and money raised at a community bake sale.

The garden opened in June with benches, a small stage, and a path wide enough for wheelchairs. Since then, the library has held story hours and summer reading clubs outdoors. Neighbors who once walked past the empty lot now stop to read, talk, and pick herbs for cooking.

Town leaders say the garden has changed how people use the library. It is no longer only a place to borrow books. It has become a gathering place where reading and community life grow together.

Question 7

According to Source II, what is the main idea of the passage?

A) a town banned outdoor reading clubs in the summer

B) a town closed its library because few people borrowed books

C) a town built a parking lot beside its library

D) a town turned an empty lot into a library garden that became a community gathering place

Source III - How to Enter the Science Fair

Use this reading for questions 12 to 16.

Step 1: Choose a topic that asks a question you can test with an experiment. Step 2: Get your teacher approval by March 3. Do not start building until your teacher has approved your plan.

Step 3: Build your display and write a clear summary of your results. Step 4: Practice explaining your project in two minutes or less. Step 5: On fair day, bring your display, your summary, and your signed entry form.

Question 12

According to Source III, what is the purpose of this text?

A) to tell a story about a science fair winner

B) to give steps for entering the science fair

C) to persuade students to avoid science fairs

D) to compare two different science projects
