2 **In physical geography, which term matches this description: distance north or south of the equator measured in degrees?**

A longitude

B latitude

C equator

D prime meridian

Understand It with Pulse | Flag a mistake

3 **In physical geography, which definition matches the term longitude?**

A an imaginary line around the middle of Earth

B distance east or west of the prime meridian measured in degrees

C the zero degree line of longitude through Greenwich

D a very large landmass on Earth

Understand It with Pulse | Flag a mistake

4 **In physical geography, which term matches this description: distance east or west of the prime meridian measured in degrees?**

A equator

B prime meridian

C longitude

D continent

Understand It with Pulse | Flag a mistake

5 **In physical geography, which definition matches the term equator?**

A the zero degree line of longitude through Greenwich

B a very large landmass on Earth

C an imaginary line around the middle of Earth

D a large depression in Earth surface filled by an ocean

6 **In physical geography, which term matches this description: an imaginary line around the middle of Earth?**

A prime meridian

B continent

C ocean basin

D equator

Understand It with Pulse | Flag a mistake

7 **In physical geography, which definition matches the term prime meridian?**

A a very large landmass on Earth

B a large depression in Earth surface filled by an ocean

C a chain of mountains

D the zero degree line of longitude through Greenwich

Understand It with Pulse | Flag a mistake

8 **In physical geography, which term matches this description: the zero degree line of longitude through Greenwich?**

- A prime meridian
- B continent
- C ocean basin
- D mountain range

Understand It with Pulse | Flag a mistake

9 **In physical geography, which definition matches the term continent?**

- A a very large landmass on Earth
- B a large depression in Earth surface filled by an ocean
- C a chain of mountains
- D a river and all its tributaries

Understand It with Pulse | Flag a mistake

10 **In physical geography, which term matches this description: a very large landmass on Earth?**

- A ocean basin
- B continent
- C mountain range
- D river system

Understand It with Pulse | Flag a mistake

11 **In physical geography, which definition matches the term ocean basin?**

- A a chain of mountains
- B a large depression in Earth surface filled by an ocean
- C a river and all its tributaries
- D long term average weather of a place

Understand It with Pulse | Flag a mistake

12 **In physical geography, which term matches this description: a large depression in Earth surface filled by an ocean?**

A mountain range

B river system

C ocean basin

D climate

Understand It with Pulse | Flag a mistake

13 **In physical geography, which definition matches the term mountain range?**

A a river and all its tributaries

B long term average weather of a place

C a chain of mountains

D short term state of the atmosphere

Understand It with Pulse | Flag a mistake

14 **In physical geography, which term matches this description: a chain of mountains?**

- A river system
- B climate
- C weather
- D mountain range

Understand It with Pulse | Flag a mistake

15 **In physical geography, which definition matches the term river system?**

- A long term average weather of a place
- B short term state of the atmosphere
- C distance north or south of the equator measured in degrees
- D a river and all its tributaries

Understand It with Pulse | Flag a mistake

16 **In physical geography, which term matches this description: a river and all its tributaries?**

- A river system
- B climate
- C weather
- D latitude

Understand It with Pulse | Flag a mistake

17 **In physical geography, which definition matches the term climate?**

- A long term average weather of a place
- B short term state of the atmosphere
- C distance north or south of the equator measured in degrees
- D distance east or west of the prime meridian measured in degrees

Understand It with Pulse | Flag a mistake

18 **In physical geography, which term matches this description: long term average weather of a place?**

A weather

B climate

C latitude

D longitude

Understand It with Pulse | Flag a mistake

19 **In physical geography, which definition matches the term weather?**

A distance north or south of the equator measured in degrees

B short term state of the atmosphere

C distance east or west of the prime meridian measured in degrees

D an imaginary line around the middle of Earth

Understand It with Pulse | Flag a mistake

20 **In physical geography, which term matches this description: short term state of the atmosphere?**

A latitude

B longitude

C weather

D equator

21 **In physical geography, a display holds 58 maps and a second display holds 5 maps. The total number of maps is**

ANSWER _____

Understand It with Pulse | Flag a mistake

22 **In physical geography, a collection has 80 maps. After 7 maps are removed, the number of maps left is**

ANSWER _____

Understand It with Pulse | Flag a mistake

23 **In physical geography, 36 maps are shared equally among 6 students. Each student receives**

ANSWER _____

Understand It with Pulse | Flag a mistake

24 **In physical geography, a project uses 6 groups with 9 maps in each group. The total number of maps is**

ANSWER _____

Understand It with Pulse | Flag a mistake

25 **In physical geography, an event in 2100 is followed by an event in 2121. The number of years between them is**

ANSWER _____

Understand It with Pulse | Flag a mistake

ANSWER KEY

1.	A	**10.**	B	**19.**	B
2.	B	**11.**	B	**20.**	C
3.	B	**12.**	C	**21.**	63
4.	C	**13.**	C	**22.**	73
5.	C	**14.**	D	**23.**	6
6.	D	**15.**	D	**24.**	54
7.	D	**16.**	A	**25.**	21
8.	A	**17.**	A		
9.	A	**18.**	B
