Final Exam — Practice Test

Prince Edward Island Global Issues 12 • 50 questions

This practice test was made by AI and there may be mistakes. If a question or answer looks wrong, use the Flag a mistake button to let Brett know so he can fix it.

1 **In physical geography global issues, what does plate tectonics mean?**

- A movement of large sections of the Earth crust
- B wearing away of land by water wind or ice
- C breaking down of rock in place by weather
- D a region with a similar long term weather pattern

Understand It with Pulse | Flag a mistake

2 **In cultural geography global issues, which term matches this description? shared beliefs customs and ways of life of a people**

- A language diffusion
- B culture geography
- C religion distribution
- D population density

Understand It with Pulse | Flag a mistake

3 **In economic geography global issues, what does trade route geography mean?**

- A where factories are built and why
- B an area where farming of certain crops dominates
- C an economy based mainly on services not goods
- D a path along which goods move between places

Understand It with Pulse | Flag a mistake

4 **In environmental studies global issues, what does ecosystem geography mean?**

- A a community of living things plus its physical setting
- B the largest population an area can support
- C steps to limit harmful releases into the environment
- D land set aside to protect nature

Understand It with Pulse | Flag a mistake

5 **In future studies global issues, which phrase is most closely linked to forecasting geography?**

- A possible futures imagining
- B pattern direction study
- C trend prediction
- D future population estimate

Understand It with Pulse | Flag a mistake

6 **In physical geography global issues, which term matches this description? movement of large sections of the Earth crust**

- A erosion geography
- B plate tectonics
- C weathering geography
- D climate zone

Understand It with Pulse | Flag a mistake

7 **In cultural geography global issues, what does language diffusion mean?**

- A where followers of faiths live around the world
- B number of people per unit of land area
- C regular movement of people between places
- D spread of a language to new areas

Understand It with Pulse | Flag a mistake

8 **In economic geography global issues, what does resource distribution mean?**

A where natural resources are found around the world

B a path along which goods move between places

C where factories are built and why

D an area where farming of certain crops dominates

Understand It with Pulse | Flag a mistake

9 **In environmental studies global issues, which term matches this description? a community of living things plus its physical setting**

A carrying capacity

B ecosystem geography

C pollution control

D conservation area

Understand It with Pulse | Flag a mistake

10 **In future studies global issues, what does trend analysis mean?**

A an estimate of future population size

B a prediction about future tools and methods

C studying patterns over time to spot direction

D a future meeting needs without harming later generations

Understand It with Pulse | Flag a mistake

11 **In physical geography global issues, what does erosion geography mean?**

A breaking down of rock in place by weather

B a region with a similar long term weather pattern

C a steady flow of seawater in a set direction

D wearing away of land by water wind or ice

Understand It with Pulse | Flag a mistake

12 **In cultural geography global issues, what does culture geography mean?**

A shared beliefs customs and ways of life of a people

B spread of a language to new areas

C where followers of faiths live around the world

D number of people per unit of land area

Understand It with Pulse | Flag a mistake

13 **In economic geography global issues, which term matches this description? where natural resources are found around the world**

A trade route geography

B resource distribution

C industrial location

D agricultural region

Understand It with Pulse | Flag a mistake

14 **In environmental studies global issues, what does carrying capacity mean?**

A steps to limit harmful releases into the environment

B land set aside to protect nature

C a species at risk of disappearing

D the largest population an area can support

Understand It with Pulse | Flag a mistake

15 **In future studies global issues, which term matches this description? an estimate of future population size**

A technology forecast

B sustainable future

C population projection

D urban planning future

Understand It with Pulse | Flag a mistake

16 **In physical geography global issues, which term matches this description? wearing away of land by water wind or ice**

- A erosion geography
- B weathering geography
- C climate zone
- D ocean current

Understand It with Pulse | Flag a mistake

17 **In cultural geography global issues, which phrase is most closely linked to language diffusion?**

- A faith locations
- B language spread
- C people per area
- D people movement pattern

Understand It with Pulse | Flag a mistake

18 **In economic geography global issues, which term matches this description? where factories are built and why**

A agricultural region

B service economy

C economic development level

D industrial location

Understand It with Pulse | Flag a mistake

19 **In environmental studies global issues, which term matches this description? the largest population an area can support**

A carrying capacity

B pollution control

C conservation area

D endangered species

Understand It with Pulse | Flag a mistake

20 **In future studies global issues, which phrase is most closely linked to technology forecast?**

A lasting needs future

B city growth design

C future tool prediction

D future food estimate

Understand It with Pulse | Flag a mistake

21 **In physical geography global issues, which phrase is most closely linked to erosion geography?**

A rock breaking

B land wearing

C weather region

D seawater flow

Understand It with Pulse | Flag a mistake

22 **In cultural geography global issues, which term matches this description? where followers of faiths live around the world**

A population density

B migration pattern

C urbanization geography

D religion distribution

Understand It with Pulse | Flag a mistake

23 **In economic geography global issues, which term matches this description? a path along which goods move between places**

A trade route geography

B industrial location

C agricultural region

D service economy

Understand It with Pulse | Flag a mistake

24 **In environmental studies global issues, which phrase is most closely linked to carrying capacity?**

A harmful release limits

B supportable population

C protected land

D disappearing species

Understand It with Pulse | Flag a mistake

25 **In future studies global issues, what does urban planning future mean?**

A an estimate of future food supply

B shifting from fossil fuels to cleaner energy

C designing how a city will grow and function

D countries working together on shared problems

Understand It with Pulse | Flag a mistake

26 **In physical geography global issues, which term matches this description? breaking down of rock in place by weather**

A climate zone

B ocean current

C river system

D weathering geography

Understand It with Pulse | Flag a mistake

27 **In cultural geography global issues, which term matches this description? spread of a language to new areas**

A language diffusion

B religion distribution

C population density

D migration pattern

Understand It with Pulse | Flag a mistake

28 **In economic geography global issues, which phrase is most closely linked to trade route geography?**

A factory placement

B goods path

C farming area

D service based economy

Understand It with Pulse | Flag a mistake

29 **In environmental studies global issues, which term matches this description? steps to limit harmful releases into the environment**

A conservation area

B endangered species

C habitat loss

D pollution control

Understand It with Pulse | Flag a mistake

30 **In future studies global issues, which term matches this description? an estimate of future food supply**

- A energy transition
- B global cooperation future
- C food production outlook
- D demographic forecast

Understand It with Pulse | Flag a mistake

31 **In physical geography global issues, which phrase is most closely linked to weathering geography?**

- A rock breaking
- B weather region
- C seawater flow
- D river network

Understand It with Pulse | Flag a mistake

32 **In cultural geography global issues, what does population density mean?**

A regular movement of people between places

B number of people per unit of land area

C growth in the share of people living in cities

D land shaped by human activity and culture

Understand It with Pulse | Flag a mistake

33 **In economic geography global issues, which phrase is most closely linked to agricultural region?**

A service based economy

B economy advancement

C resident production value

D farming area

Understand It with Pulse | Flag a mistake

34 **In environmental studies global issues, which phrase is most closely linked to waste management?**

A protection rules

B lifestyle land need

C safe waste handling

D quickly replaced resource

Understand It with Pulse | Flag a mistake

35 **In future studies global issues, which phrase is most closely linked to energy transition?**

A shared problem teamwork

B population structure prediction

C cleaner energy shift

D future harm judging

Understand It with Pulse | Flag a mistake

36 **In physical geography global issues, what does climate zone mean?**

A a steady flow of seawater in a set direction

B a region with a similar long term weather pattern

C a main river plus its tributaries and drainage area

D how colliding plates or volcanoes raise high land

Understand It with Pulse | Flag a mistake

37 **In cultural geography global issues, which phrase is most closely linked to population density?**

A people movement pattern

B city living growth

C human shaped land

D people per area

Understand It with Pulse | Flag a mistake

38 **In economic geography global issues, which phrase is most closely linked to industrial location?**

A factory placement

B farming area

C service based economy

D economy advancement

Understand It with Pulse | Flag a mistake

39 **In environmental studies global issues, what does ecological footprint mean?**

A a resource nature replaces fairly quickly

B a resource used up much faster than nature makes it

C the land and water needed to support a lifestyle

D a community of living things plus its physical setting

Understand It with Pulse | Flag a mistake

40 **In future studies global issues, what does demographic forecast mean?**

A judging how likely and harmful a future event is

B planning for outcomes many years ahead

C a prediction about future population structure

D predicting future conditions from present trends

Understand It with Pulse | Flag a mistake

41 **In physical geography global issues, which phrase is most closely linked to climate zone?**

A seawater flow

B river network

C high land raising

D weather region

Understand It with Pulse | Flag a mistake

42 **In cultural geography global issues, which phrase is most closely linked to religion distribution?**

- A faith locations
- B people per area
- C people movement pattern
- D city living growth

Understand It with Pulse | Flag a mistake

43 **In economic geography global issues, what does agricultural region mean?**

- A an economy based mainly on services not goods
- B an area where farming of certain crops dominates
- C how advanced an economy is in wealth and industry
- D total value produced by a country residents in a year

Understand It with Pulse | Flag a mistake

44 **In environmental studies global issues, which term matches this description? a resource nature replaces fairly quickly**

A nonrenewable resource

B ecosystem geography

C renewable resource geography

D carrying capacity

Understand It with Pulse | Flag a mistake

45 **In future studies global issues, which term matches this description? judging how likely and harmful a future event is**

A long term planning

B forecasting geography

C risk assessment future

D scenario planning

Understand It with Pulse | Flag a mistake

46 **In physical geography global issues, what does ocean current mean?**

A a steady flow of seawater in a set direction

B a main river plus its tributaries and drainage area

C how colliding plates or volcanoes raise high land

D fertile land turning into desert

Understand It with Pulse | Flag a mistake

47 **In cultural geography global issues, which term matches this description? regular movement of people between places**

A urbanization geography

B migration pattern

C cultural landscape

D ethnic group geography

Understand It with Pulse | Flag a mistake

48 **In economic geography global issues, what does economic development level mean?**

A total value produced by a country residents in a year

B all people able and available to work

C how easily producers can reach buyers

D how advanced an economy is in wealth and industry

Understand It with Pulse | Flag a mistake

49 **In environmental studies global issues, which phrase is most closely linked to nonrenewable resource?**

A living community plus setting

B supportable population

C slowly made resource

D harmful release limits

Understand It with Pulse | Flag a mistake

50 **In future studies global issues, which phrase is most closely linked to long term planning?**

A trend prediction

B possible futures imagining

C years ahead planning

D pattern direction study

Understand It with Pulse | Flag a mistake
