PRINCE EDWARD ISLAND GLOBAL ISSUES 12 · UNIT A

Physical Geography — Practice Test

Prince Edward Island Global Issues 12 • 25 questions

This practice test was made by AI and there may be mistakes. If a question or answer looks wrong, use the Flag a mistake button to let Brett know so he can fix it.

1 **In physical geography global issues, what does plate tectonics mean?**

- A movement of large sections of the Earth crust
- B wearing away of land by water wind or ice
- C breaking down of rock in place by weather
- D a region with a similar long term weather pattern

Understand It with Pulse | Flag a mistake

2 **In physical geography global issues, which term matches this description? movement of large sections of the Earth crust**

- A erosion geography
- B plate tectonics
- C weathering geography
- D climate zone

Understand It with Pulse | Flag a mistake

3 **In physical geography global issues, which phrase is most closely linked to plate tectonics?**

- A land wearing
- B rock breaking
- C crust movement
- D weather region

Understand It with Pulse | Flag a mistake

4 **In physical geography global issues, what does erosion geography mean?**

A breaking down of rock in place by weather

B a region with a similar long term weather pattern

C a steady flow of seawater in a set direction

D wearing away of land by water wind or ice

Understand It with Pulse | Flag a mistake

5 **In physical geography global issues, which term matches this description? wearing away of land by water wind or ice**

A erosion geography

B weathering geography

C climate zone

D ocean current

Understand It with Pulse | Flag a mistake

6 **In physical geography global issues, which phrase is most closely linked to erosion geography?**

- A rock breaking
- B land wearing
- C weather region
- D seawater flow

Understand It with Pulse | Flag a mistake

7 **In physical geography global issues, what does weathering geography mean?**

- A a region with a similar long term weather pattern
- B a steady flow of seawater in a set direction
- C breaking down of rock in place by weather
- D a main river plus its tributaries and drainage area

Understand It with Pulse | Flag a mistake

8 **In physical geography global issues, which term matches this description? breaking down of rock in place by weather**

- A climate zone
- B ocean current
- C river system
- D weathering geography

Understand It with Pulse | Flag a mistake

9 **In physical geography global issues, which phrase is most closely linked to weathering geography?**

- A rock breaking
- B weather region
- C seawater flow
- D river network

Understand It with Pulse | Flag a mistake

10 **In physical geography global issues, what does climate zone mean?**

- A a steady flow of seawater in a set direction
- B a region with a similar long term weather pattern
- C a main river plus its tributaries and drainage area
- D how colliding plates or volcanoes raise high land

Understand It with Pulse | Flag a mistake

11 **In physical geography global issues, which term matches this description? a region with a similar long term weather pattern**

- A ocean current
- B river system
- C climate zone
- D mountain formation

Understand It with Pulse | Flag a mistake

12 **In physical geography global issues, which phrase is most closely linked to climate zone?**

A seawater flow

B river network

C high land raising

D weather region

Understand It with Pulse | Flag a mistake

13 **In physical geography global issues, what does ocean current mean?**

A a steady flow of seawater in a set direction

B a main river plus its tributaries and drainage area

C how colliding plates or volcanoes raise high land

D fertile land turning into desert

Understand It with Pulse | Flag a mistake

14 **In physical geography global issues, which term matches this description? a steady flow of seawater in a set direction**

- A river system
- B ocean current
- C mountain formation
- D desertification geography

Understand It with Pulse | Flag a mistake

15 **In physical geography global issues, which phrase is most closely linked to ocean current?**

- A river network
- B high land raising
- C seawater flow
- D land to desert

Understand It with Pulse | Flag a mistake

16 **In physical geography global issues, what does river system mean?**

- A how colliding plates or volcanoes raise high land
- B fertile land turning into desert
- C slow flow of a large mass of ice downhill
- D a main river plus its tributaries and drainage area

Understand It with Pulse | Flag a mistake

17 **In physical geography global issues, which term matches this description? a main river plus its tributaries and drainage area**

- A river system
- B mountain formation
- C desertification geography
- D glacier movement

Understand It with Pulse | Flag a mistake

18 **In physical geography global issues, which phrase is most closely linked to river system?**

- A high land raising
- B river network
- C land to desert
- D slow ice flow

Understand It with Pulse | Flag a mistake

19 **In physical geography global issues, what does mountain formation mean?**

- A fertile land turning into desert
- B slow flow of a large mass of ice downhill
- C how colliding plates or volcanoes raise high land
- D an opening where lava ash and gases erupt

Understand It with Pulse | Flag a mistake

20 **In physical geography global issues, which term matches this description? how colliding plates or volcanoes raise high land**

- A desertification geography
- B glacier movement
- C volcano geography
- D mountain formation

Understand It with Pulse | Flag a mistake

21 **In physical geography global issues, which phrase is most closely linked to mountain formation?**

- A high land raising
- B land to desert
- C slow ice flow
- D lava opening

Understand It with Pulse | Flag a mistake

22 **In physical geography global issues, what does desertification geography mean?**

- A slow flow of a large mass of ice downhill
- B fertile land turning into desert
- C an opening where lava ash and gases erupt
- D sudden shaking caused by movement in the crust

Understand It with Pulse | Flag a mistake

23 **In physical geography global issues, which term matches this description? fertile land turning into desert**

- A glacier movement
- B volcano geography
- C desertification geography
- D earthquake geography

Understand It with Pulse | Flag a mistake

24 **In physical geography global issues, which phrase is most closely linked to desertification geography?**

A slow ice flow

B lava opening

C crust shaking

D land to desert

Understand It with Pulse | Flag a mistake

25 **In physical geography global issues, what does glacier movement mean?**

A slow flow of a large mass of ice downhill

B an opening where lava ash and gases erupt

C sudden shaking caused by movement in the crust

D how weathered rock and organic matter become soil

Understand It with Pulse | Flag a mistake

ANSWER KEY

1. A
2. B
3. C
4. D
5. A
6. B
7. C
8. D
9. A
10. B
11. C
12. D
13. A
14. B
15. C
16. D
17. A
18. B
19. C
20. D
21. A
22. B
23. C
24. D
25. A
