PRINCE EDWARD ISLAND GLOBAL ISSUES 12 · UNIT D · 25 QUESTIONS

Environmental Studies — Practice Test

This practice test was made by AI and there may be mistakes. If a question or answer looks wrong, use the Flag a mistake button to let Brett know so he can fix it.

1 **In environmental studies global issues, what does ecosystem geography mean?**

- A the largest population an area can support
- B a community of living things plus its physical setting
- C steps to limit harmful releases into the environment
- D land set aside to protect nature

Understand It with Pulse | Flag a mistake

2 **In environmental studies global issues, which term matches this description? a community of living things plus its physical setting**

- A carrying capacity
- B ecosystem geography
- C pollution control
- D conservation area

Understand It with Pulse | Flag a mistake

3 **In environmental studies global issues, which phrase is most closely linked to ecosystem geography?**

- A supportable population
- B harmful release limits
- C living community + setting
- D protected land

Understand It with Pulse | Flag a mistake

4 **In environmental studies global issues, what does carrying capacity mean?**

- A steps to limit harmful releases into the environment
- B land set aside to protect nature
- C a species at risk of disappearing
- D the largest population an area can support

Understand It with Pulse | Flag a mistake

5 **In environmental studies global issues, which term matches this description? the largest population an area can support**

- A carrying capacity
- B pollution control
- C conservation area
- D endangered species

Understand It with Pulse | Flag a mistake

6 **In environmental studies global issues, which phrase is most closely linked to carrying capacity?**

- A harmful release limits
- B supportable population
- C protected land
- D disappearing species

Understand It with Pulse | Flag a mistake

7 **In environmental studies global issues, what does pollution control mean?**

- A land set aside to protect nature
- B a species at risk of disappearing
- C steps to limit harmful releases into the environment
- D destruction of the places where species live

Understand It with Pulse | Flag a mistake

8 **In environmental studies global issues, which term matches this description? steps to limit harmful releases into the environment**

- A conservation area
- B endangered species
- C habitat loss
- D pollution control

Understand It with Pulse | Flag a mistake

9 **In environmental studies global issues, which phrase is most closely linked to pollution control?**

A harmful release limits

B protected land

C disappearing species

D living place destruction

Understand It with Pulse | Flag a mistake

10 **In environmental studies global issues, what does conservation area mean?**

A a species at risk of disappearing

B land set aside to protect nature

C destruction of the places where species live

D adjusting to changing climate conditions

Understand It with Pulse | Flag a mistake

11 **In environmental studies global issues, which term matches this description? land set aside to protect nature**

A endangered species

B habitat loss

C conservation area

D climate adaptation

Understand It with Pulse | Flag a mistake

12 **In environmental studies global issues, which phrase is most closely linked to conservation area?**

A disappearing species

B living place destruction

C climate adjustment

D protected land

Understand It with Pulse | Flag a mistake

13 **In environmental studies global issues, what does endangered species mean?**

- A a species at risk of disappearing
- B destruction of the places where species live
- C adjusting to changing climate conditions
- D using up a resource faster than nature replaces it

Understand It with Pulse | Flag a mistake

14 **In environmental studies global issues, which term matches this description? a species at risk of disappearing**

- A habitat loss
- B endangered species
- C climate adaptation
- D resource depletion

Understand It with Pulse | Flag a mistake

15 **In environmental studies global issues, which phrase is most closely linked to endangered species?**

A living place destruction

B climate adjustment

C disappearing species

D faster than replacement use

Understand It with Pulse | Flag a mistake

16 **In environmental studies global issues, what does habitat loss mean?**

A adjusting to changing climate conditions

B using up a resource faster than nature replaces it

C collecting treating and disposing of waste safely

D destruction of the places where species live

Understand It with Pulse | Flag a mistake

17 **In environmental studies global issues, which term matches this description? destruction of the places where species live**

- A habitat loss
- B climate adaptation
- C resource depletion
- D waste management

Understand It with Pulse | Flag a mistake

18 **In environmental studies global issues, which phrase is most closely linked to habitat loss?**

- A climate adjustment
- B living place destruction
- C faster than replacement use
- D safe waste handling

Understand It with Pulse | Flag a mistake

19 **In environmental studies global issues, what does climate adaptation mean?**

A using up a resource faster than nature replaces it

B collecting treating and disposing of waste safely

C adjusting to changing climate conditions

D government rules to protect the environment

Understand It with Pulse | Flag a mistake

20 **In environmental studies global issues, which term matches this description? adjusting to changing climate conditions**

A resource depletion

B waste management

C environmental policy

D climate adaptation

Understand It with Pulse | Flag a mistake

21 **In environmental studies global issues, which phrase is most closely linked to climate adaptation?**

A climate adjustment

B faster than replacement use

C safe waste handling

D protection rules

Understand It with Pulse | Flag a mistake

22 **In environmental studies global issues, what does resource depletion mean?**

A collecting treating and disposing of waste safely

B using up a resource faster than nature replaces it

C government rules to protect the environment

D the land and water needed to support a lifestyle

Understand It with Pulse | Flag a mistake

23 **In environmental studies global issues, which term matches this description? using up a resource faster than nature replaces it**

- A waste management
- B environmental policy
- C resource depletion
- D ecological footprint

Understand It with Pulse | Flag a mistake

24 **In environmental studies global issues, which phrase is most closely linked to resource depletion?**

- A safe waste handling
- B protection rules
- C lifestyle land need
- D faster than replacement use

Understand It with Pulse | Flag a mistake

25

In environmental studies global issues, what does waste management mean?

A collecting treating and disposing of waste safely

B government rules to protect the environment

C the land and water needed to support a lifestyle

D a resource nature replaces fairly quickly

Understand It with Pulse
