PRINCE EDWARD ISLAND GLOBAL ISSUES 12 · UNIT E

Future Studies — Practice Test

Prince Edward Island Global Issues 12 • 25 questions

This practice test was made by AI and there may be mistakes. If a question or answer looks wrong, use the Flag a mistake button to let Brett know so he can fix it.

1 **In future studies global issues, what does forecasting geography mean?**

- A imagining several possible futures to prepare for them
- B predicting future conditions from present trends
- C studying patterns over time to spot direction
- D an estimate of future population size

Understand It with Pulse | Flag a mistake

2 **In future studies global issues, which term matches this description? predicting future conditions from present trends**

A scenario planning

B forecasting geography

C trend analysis

D population projection

Understand It with Pulse | Flag a mistake

3 **In future studies global issues, which phrase is most closely linked to forecasting geography?**

A possible futures imagining

B pattern direction study

C trend prediction

D future population estimate

Understand It with Pulse | Flag a mistake

4 **In future studies global issues, what does scenario planning mean?**

- A studying patterns over time to spot direction
- B an estimate of future population size
- C a prediction about future tools and methods
- D imagining several possible futures to prepare for them

Understand It with Pulse | Flag a mistake

5 **In future studies global issues, which term matches this description? imagining several possible futures to prepare for them**

- A scenario planning
- B trend analysis
- C population projection
- D technology forecast

Understand It with Pulse | Flag a mistake

6 **In future studies global issues, which phrase is most closely linked to scenario planning?**

A pattern direction study

B possible futures imagining

C future population estimate

D future tool prediction

Understand It with Pulse | Flag a mistake

7 **In future studies global issues, what does trend analysis mean?**

A an estimate of future population size

B a prediction about future tools and methods

C studying patterns over time to spot direction

D a future meeting needs without harming later generations

Understand It with Pulse | Flag a mistake

8 **In future studies global issues, which term matches this description? studying patterns over time to spot direction**

- A population projection
- B technology forecast
- C sustainable future
- D trend analysis

Understand It with Pulse | Flag a mistake

9 **In future studies global issues, which phrase is most closely linked to trend analysis?**

- A pattern direction study
- B future population estimate
- C future tool prediction
- D lasting needs future

Understand It with Pulse | Flag a mistake

10 **In future studies global issues, what does population projection mean?**

A a prediction about future tools and methods

B an estimate of future population size

C a future meeting needs without harming later generations

D designing how a city will grow and function

Understand It with Pulse | Flag a mistake

11 **In future studies global issues, which term matches this description? an estimate of future population size**

A technology forecast

B sustainable future

C population projection

D urban planning future

Understand It with Pulse | Flag a mistake

12 **In future studies global issues, which phrase is most closely linked to population projection?**

A future tool prediction

B lasting needs future

C city growth design

D future population estimate

Understand It with Pulse | Flag a mistake

13 **In future studies global issues, what does technology forecast mean?**

A a prediction about future tools and methods

B a future meeting needs without harming later generations

C designing how a city will grow and function

D an estimate of future food supply

Understand It with Pulse | Flag a mistake

14 **In future studies global issues, which term matches this description? a prediction about future tools and methods**

- A sustainable future
- B technology forecast
- C urban planning future
- D food production outlook

Understand It with Pulse | Flag a mistake

15 **In future studies global issues, which phrase is most closely linked to technology forecast?**

- A lasting needs future
- B city growth design
- C future tool prediction
- D future food estimate

Understand It with Pulse | Flag a mistake

16 **In future studies global issues, what does sustainable future mean?**

A designing how a city will grow and function

B an estimate of future food supply

C shifting from fossil fuels to cleaner energy

D a future meeting needs without harming later generations

Understand It with Pulse | Flag a mistake

17 **In future studies global issues, which term matches this description? a future meeting needs without harming later generations**

A sustainable future

B urban planning future

C food production outlook

D energy transition

Understand It with Pulse | Flag a mistake

18 **In future studies global issues, which phrase is most closely linked to sustainable future?**

- A city growth design
- B lasting needs future
- C future food estimate
- D cleaner energy shift

Understand It with Pulse | Flag a mistake

19 **In future studies global issues, what does urban planning future mean?**

- A an estimate of future food supply
- B shifting from fossil fuels to cleaner energy
- C designing how a city will grow and function
- D countries working together on shared problems

Understand It with Pulse | Flag a mistake

20 **In future studies global issues, which term matches this description? designing how a city will grow and function**

- A food production outlook
- B energy transition
- C global cooperation future
- D urban planning future

Understand It with Pulse | Flag a mistake

21 **In future studies global issues, which phrase is most closely linked to urban planning future?**

- A city growth design
- B future food estimate
- C cleaner energy shift
- D shared problem teamwork

Understand It with Pulse | Flag a mistake

22 **In future studies global issues, what does food production outlook mean?**

- A shifting from fossil fuels to cleaner energy
- B an estimate of future food supply
- C countries working together on shared problems
- D a prediction about future population structure

Understand It with Pulse | Flag a mistake

23 **In future studies global issues, which term matches this description? an estimate of future food supply**

- A energy transition
- B global cooperation future
- C food production outlook
- D demographic forecast

Understand It with Pulse | Flag a mistake

24 **In future studies global issues, which phrase is most closely linked to food production outlook?**

A cleaner energy shift

B shared problem teamwork

C population structure prediction

D future food estimate

Understand It with Pulse | Flag a mistake

25 **In future studies global issues, what does energy transition mean?**

A shifting from fossil fuels to cleaner energy

B countries working together on shared problems

C a prediction about future population structure

D judging how likely and harmful a future event is

Understand It with Pulse | Flag a mistake
