PRINCE EDWARD ISLAND GLOBAL STUDIES 11 · FINAL EXAM

Final Exam — Practice Test

Prince Edward Island Global Studies 11 • 50 questions

This practice test was made by AI and there may be mistakes. If a question or answer looks wrong, use the Flag a mistake button to let Brett know so he can fix it.

1 **On a map with scale 1 to 50000, a road measures 4 centimetres. Its real length in kilometres is**

ANSWER _____

Understand It with Pulse | Flag a mistake

2 **In physical geography, which term names the breakdown of rock in place by weather, water or living things**

A erosion

B weathering

C biome

D monsoon

Understand It with Pulse | Flag a mistake

3 **In cultural geography, which term names the movement of people from one place to live in another**

A push factor

B migration

C pull factor

D urbanisation

Understand It with Pulse | Flag a mistake

4 **A geographer who checks a map against what is actually on the ground is checking the maps**

A age

B colour

C price

D accuracy

Understand It with Pulse | Flag a mistake

5 **In physical geography, which term names a large region with a characteristic climate, vegetation and wildlife**

A biome

B monsoon

C ocean current

D El Nino

Understand It with Pulse | Flag a mistake

6 **In cultural geography, which term names a reason that attracts people to a new place, such as jobs or safety**

A pull factor

B urbanisation

C culture

D language family

Understand It with Pulse | Flag a mistake

7 **A GIS layer showing roads can be combined with a layer showing hospitals to help plan**

- A soil types
- B rainfall only
- C emergency access routes
- D language use

Understand It with Pulse | Flag a mistake

8 **In physical geography, which term names a large flow of ocean water driven by wind and differences in temperature and salinity**

- A El Nino
- B ocean current
- C water cycle
- D rain shadow

Understand It with Pulse | Flag a mistake

9 **In cultural geography, which term names a group of languages that share a common ancestor**

- A subsistence farming
- B commercial farming
- C language family
- D development indicator

Understand It with Pulse | Flag a mistake

10 **A map that uses proportional circles to show city populations lets readers compare city size at a**

- A scale bar
- B legend only
- C grid only
- D glance

Understand It with Pulse | Flag a mistake

11 **In physical geography, which term names the dry area on the sheltered side of a mountain range**

- A rain shadow
- B permafrost
- C plate tectonics
- D weathering

Understand It with Pulse | Flag a mistake

12 **In cultural geography, which term names farming that produces crops or animals mainly for sale**

- A commercial farming
- B development indicator
- C population distribution
- D migration

Understand It with Pulse | Flag a mistake

13 **A north arrow on a map is needed so readers can work out**

A distance only

B elevation only

C population

D direction

Understand It with Pulse | Flag a mistake

14 **The Himalayas formed where the Indian plate collided with the Eurasian plate, which is an example of a**

A divergent boundary

B transform boundary only

C convergent plate boundary

D hot spot only

Understand It with Pulse | Flag a mistake

15 **A refugee is a person who has fled their home because of persecution, war or**

A tourism

B study

C trade

D violence

Understand It with Pulse | Flag a mistake

16 **A researcher who compares satellite images of a coastline from two years apart is studying coastal**

A rock colour only

B change over time

C water taste

D wind speed only

Understand It with Pulse | Flag a mistake

17 **Tropical rainforests have high rainfall and warm temperatures all year, which supports dense**

A vegetation

B ice cover

C desert sand

D tundra moss only

Understand It with Pulse | Flag a mistake

18 **A lingua franca is a language used for communication between people who do not share a**

A country

B first language

C religion

D currency

Understand It with Pulse | Flag a mistake

19 **A satellite image with coarse resolution may show a forest but not individual trees, which is a limit of**

A colour

B resolution

C scale

D legend

Understand It with Pulse | Flag a mistake

20 **Coastal erosion is faster where waves attack soft rock, such as clay, than where they attack hard rock, such as**

A sand

B mud

C peat

D granite

Understand It with Pulse | Flag a mistake

21 **A country with a high birth rate and a falling death rate will usually experience rapid population**

A growth

B decline

C stability

D ageing only

Understand It with Pulse | Flag a mistake

22 **An aerial photograph taken straight down is most useful for mapping land use because it shows the ground in**

A plan view

B profile view

C cross section only

D 3D only

Understand It with Pulse | Flag a mistake

23 **In the water cycle, water returns from the atmosphere to the ground as**

A evaporation

B precipitation

C transpiration only

D condensation only

Understand It with Pulse | Flag a mistake

24 **Fair trade aims to give producers in developing countries a fairer price and better working**

A weather

B transport

C conditions

D advertising

Understand It with Pulse | Flag a mistake

25 **In geographic methods, which term names a line on a map joining places of equal elevation**

A latitude

B longitude

C contour line

D GIS

Understand It with Pulse | Flag a mistake

26 **Earthquakes are most common near plate boundaries because plates store and release energy as they**

A move and lock

B melt

C cool slowly

D rotate

Understand It with Pulse | Flag a mistake

27 **Cultural diffusion happens when ideas, goods or customs spread from one group to**

A one city only

B another

C one farm only

D one school only

Understand It with Pulse | Flag a mistake

28 **A region has 12000 people living in 400 km². Its population density per km² is**

ANSWER _____

Understand It with Pulse | Flag a mistake

29 **A place records a high temperature of 28 degrees and a low of 12 degrees. The temperature range is how many degrees**

ANSWER _____

Understand It with Pulse | Flag a mistake

30 **A city region has 15000 people in 500 km². Its population density per km² is**

ANSWER _____

Understand It with Pulse | Flag a mistake

31 **A region has 5000 people living in 250 km². Its population density per km² is**

ANSWER _____

Understand It with Pulse | Flag a mistake

32 **A place records a high temperature of 22 degrees and a low of 6 degrees. The temperature range is how many degrees**

ANSWER _____

Understand It with Pulse | Flag a mistake

33 **A region has 50000 people, of whom 30000 live in towns and cities. The rural population is how many people**

ANSWER _____

Understand It with Pulse | Flag a mistake

34 **In geographic methods, which term names distance east or west of the prime meridian, measured in degrees**

A longitude

B GIS

C remote sensing

D choropleth map

Understand It with Pulse | Flag a mistake

35 **A town records rainfall of 200 millimetres in spring, 150 in summer and 100 in autumn. The total for the three seasons is how many millimetres**

ANSWER _____

Understand It with Pulse | Flag a mistake

36 **Life expectancy, literacy and income per person are often combined to compare development between**

A cities only

B farms only

C countries

D schools only

Understand It with Pulse | Flag a mistake

37 **In geographic methods, which term names gathering information about a place from satellites or aircraft without visiting it**

A choropleth map

B grid reference

C remote sensing

D fieldwork

Understand It with Pulse | Flag a mistake

38 **The equator receives direct sunlight for much of the year, which is why tropical regions are generally**

A cold

B dry always

C windy only

D warm

Understand It with Pulse | Flag a mistake

39 **Globalisation has spread some foods, music and fashions worldwide, which some geographers see as cultural**

A isolation

B homogenisation

C erosion

D diffusion only

Understand It with Pulse | Flag a mistake

40 **A dot map is most useful for showing the distribution of individual features such as**

- A average temperatures
- B elevation
- C ocean depth
- D farms or homes

Understand It with Pulse | Flag a mistake

41 **Deforestation can increase soil erosion because tree roots no longer hold the soil in**

- A water
- B place
- C shade
- D air

Understand It with Pulse | Flag a mistake

42 **A village of 800 people gains 120 newcomers and loses 40 who leave. The new population is**

ANSWER _____

Understand It with Pulse | Flag a mistake

43 **In geographic methods, which term names the ratio between a distance on a map and the matching distance on the ground**

A scale

B legend

C contour line

D latitude

Understand It with Pulse | Flag a mistake

44 **A hurricane forms over warm ocean water and weakens over land or cold water because it loses its energy**

A wind

B rain

C source

D name

Understand It with Pulse | Flag a mistake

45 **Transnational companies operate in many countries, moving production to places with lower costs, which links distant**

A economies

B cultures only

C climates

D languages only

Understand It with Pulse | Flag a mistake

46 **When choosing a sample for fieldwork, a geographer who picks sites at regular intervals along a river is using**

A systematic sampling

B random guessing

C a census only

D a single visit

Understand It with Pulse | Flag a mistake

47 **A coral reef needs warm, clear, shallow water, so reefs are found mainly in tropical**

A seas

B lakes

C rivers

D oceans at high latitude

Understand It with Pulse | Flag a mistake

48 **Remittances are money sent home by migrants, which can support families and local economies in the migrants home**

A city only

B village only

C country

D region only

Understand It with Pulse | Flag a mistake

49 **On a map with scale 1 to 200000, a road measures 2 centimetres. Its real length in kilometres is**

ANSWER _____

Understand It with Pulse | Flag a mistake

50 **A floodplain is flat land beside a river that floods when the river overflows, which is why building there carries**

A profit

B fertility only

C risk

D beauty only

Understand It with Pulse | Flag a mistake

ANSWER KEY

1. 2
2. B
3. B
4. D
5. A
6. A
7. C
8. B
9. C
10. D
11. A
12. A
13. D
14. C
15. D
16. B
17. A
18. B
19. B
20. D
21. A
22. A
23. B
24. C
25. C
26. A
27. B
28. 30
29. 16
30. 30
31. 20
32. 16
33. 20000
34. A
35. 450
36. C
37. C
38. D
39. B
40. D
41. B
42. 880
43. A
44. C
45. A
46. A
47. A
48. C
49. 4
50. C
